

HS HOLZEXPORT SCHUSTER has been in Progetto Fuoco 2018

From the 21st to the 25th February the 11th edition of the **Progetto Fuoco**, Europe's biggest expo concerning the equipment for and products of the wood-fired heating industry, was taking place at Verona fairgrounds.

All in all more than 70.000 visitors took the chance to inform themselves on the products of 754 exhibitors from the sector. The 105,000 square meters of exhibition area featured a wide array of products like firplaces, heating systems, stoves, BBQs, Pellets.

HS Holzexport Schuster was present on a new stand with an extent of 64 square meters. This years edition of the Progetto Fuoco has also been chosen to feature the celebrations for our **85th anniversary**. Both, customers and suppliers were present at the announced coming together.

We would like to thank all our visitors for their coming and the great interest in our product, a first class, all natural Pellet. Usage of Schuster-Pellets is convenient, safe, ecologic and in addition also economical.

A „Best Of“– Album featuring our best photos and snapshots of the expo is also available on our facebook page.
